TRAINING WORKSHOP ON URBAN FORESTRY

Institute of Forest Genetics and Tree Breeding, Coimbatore is organizing a Training Workshop on Urban Forestry. This is in the context of understanding the need for supporting all the Urban Greening programmes being taken up with huge enthusiasm among public and Government. This training programme will support the initiatives on urban greening by sharing the knowledge and wisdom of the subject experts in Urban greening programmes. This sharing of knowledge will benefit the stakeholders and executives and in turn will increase the success of urban tree planting. The tentative topics to be covered are:

- i) Urban greening projects – Past Experiences and Future Strategies
- ii) Species selection and management of Urban Forestry
- iii) Establishment and management of gardens and Parks in Urban areas
- iv) Regulations in planting and felling of trees in Urban areas
- v) Role of NGOs in Urban Greening
- vi) Panel Discussions by subject experts

The Training Workshop will be conducted on 25th November 2016 as one day programme. Interested participants register for the training programme. For further information contact The Director, IFGTB at dir_ifgtb@icfre.org or The Organizing Secretary of the Training Programme – C. Buvanewaran at 9442245047 or cbuanes@gmail.com.
