

2011

1. Seed Infestation by insects among the emergent rainforest canopies at Makutta, Western Ghats (2007-2011) PI: Mr. Y.B. Srinivasa
2. Anatomical approach to evaluate treatability of timbers. (2008-2011) PI: Mrs. D. Venmalar
3. Ecological, economic and socio-culture evaluation of a Ficus based traditional agroforestry system in Mandya district of Karnataka. (2008-2011) PI: Dr. Syam Viswanath
4. Incidence and diversity of marine borers in mangrove habitats of Northern Andhra Pradesh. (2008-2011) PI: M.V. Rao
5. Studies on the insect pest problems of sandal under cultivation and their management. (2008 -2011) PI: Mr. Raja Muthukrishnan
6. Studies on seed variability, propagation and ex situ conservation of *Canarium strictum* Roxb and *Hydnocarpus pentandra* (Buch-Ham) Oken – threatened medicinal trees. (2008-2011) PI: Dr. Geeta Joshi
7. Studies on the permeability of selected imported timbers marketed in Karnataka. (2008-2011) PI: Mr. P. Narayanappa
8. Study on the morphology and properties of natural fiber filled polypropylene composites (NFPPC) (2008-2011) PI: Dr. Pankaj Aggarwal
9. Synthesis of organometallic complex replacing arsenic component in CCA preservative by organic ligant (plant extractive) and evaluate as semi biopreservative. (2008-2011) PI: Mr. S.H. Jain
10. Evaluation of strength properties of the wood and the wood products in use by using Ultrasonic methods. (2009-2011) PI: N.C.M. Rajan
11. Effect of moisture content and diameter on the treatability of canes by vacuum impregnation method. (2009-2011) PI: Mrs. D. Venmalar
12. Production of clean Producer gas from woody biomass. (2009-2011) PI: R. Ezhumalai
