

List of training programme organized during last three years

2018-19

- **Scientist**
 1. Advance Molecular techniques pathogenic and beneficial Microbes
 2. Hydrological Modeling using QSWAT
 3. Valuation/Quantification of Ecosystem Services
- **Technical Staff**
 1. Research Methodology and Statistical tools in forestry
 2. Digital Library/Repository/RFID Technology
 3. Research Methodology and Statistical tools in forestry
- **Administrative Staff**
 1. Administrative Vigilance and Disciplinary Procedures
 2. Office Procedures, Noting and Drafting
- **Executive Staff**
 1. Induction training for Forest Guards

2019-20

- **Scientist**
 1. Use of Remote Sensing and GIS in Forestry
 2. Forest Genetics Resources Management & Conservation
 3. Environmental Impact Assessment
- **Technical Staff**
 1. Research Methodology and Statistical tools in forestry
 2. NTFP value and assessment
 3. Tissue culture of tree Bamboos
 4. Field Survey data collection, compilation and analysis
- **Administrative Staff**
 1. Recruitment, roster writing and reservation in service, promotion, engagement of personnel
 2. Finance, budget and accounts, internal audit and control
 3. E-Procurement and purchase management in Government, Storekeeping and Record Maintenance

2020-21

- **Scientist**

1. Statistical methods in Forestry Research
2. Introductory training in molecular biology techniques
3. Integrated pest management
4. Integrated Pest and Disease Management
5. Advance training in remote sensing & GIS (Hyper Spectral Remote Sensing, vegetation analysis, GIS in water resources, application in forestry etc.)
6. Assessment of carbon sequestration of different eco-system/forest
7. Eco-restoration of Desert and Degraded areas
8. Agroforestry and Land Use Management
9. Statistical methods in Forestry Research
10. Induction training for newly recruited Scientist-B

- **Technical Staff**

1. Composting Techniques
2. Market Mechanism of Agroforestry Products
3. Soil Survey
4. Networking and hardware Maintenance
5. Research methodology and statistical tools in forestry
6. Processing and analysis of honey, gums and resins.
7. Plant taxonomy and economic botany
8. Eco-restoration of Desert and Degraded areas
9. Food Safety & quality control
10. Induction training for newly recruited Technicians

- **Administrative Staff**

1. Office Procedures, handling office correspondence, file management, noting and drafting, service and establishment rules, office equipment etc.
2. Computers applications
3. E-Procurement & purchase management in Government, storekeeping and record maintenance
4. Induction training for newly recruited administrative staff

- **Executive Staff**

1. Induction training for Forest Guards
2. Induction training for Forest Guards
