

RFRI CONDUCTS SKILL DEVELOPMENT TRAINING AT MANIPUR

Rain Forest Research Institute, Jorhat conducted two training programmes on ‘Bamboo Cultivation, Artificial Inoculation on Agar and Mortality of *Parkia roxburghii*’ under Van Vigyan Kendra, Manipur and Demo Village on 6th and 7th December, 2019 at Forest Training School, Mantripukhuri, Imphal and at FEEDS, Hengbung Manipur, respectively. There were all together 70 participants that included Frontline staff of Forest Department, NGOs and Farmers.

Dr. R. K. Borah, Scientist-F, RFRI delivered a presentation on ‘Mortality of *P. roxburghii* (Youngchak) and its management’. He delivered detailed presentation on Nursery and Plantation Management of Agarwood. He also demonstrated techniques of artificial induction in Agarwood (*Aquilaria malaccensis*).

Mrs. Ellora Dutta Borah, Asstt. Chief Technical Officer, RFRI, delivered a presentation on Bamboo Propagation and Plantation Management. She conducted demonstrations on various bamboo propagation techniques such as Culm Cuttings, Branch Cutting, Macro-proliferation etc.

The Training ended with distribution of Certificates to the participants.
